

# Installing Sitebulb and running your first crawl

Trainer:

Mark Williams-Cook  
Candour

# Challenge

Download and install the Sitebulb tool using the link in the lecture resources.

# Challenge

Following the configuration you have seen, start a crawl of a website within Sitebulb.

# Challenge

Spend some time looking at the feedback you got from Sitebulb and getting familiar with interface. Take the time to read through some of their explanations of the tips you are seeing.
